1940, 1964)

Capital Intensity  
Trends on Firms  
in the U.S. and  
Japan: Comment

[illegible]

1. *Pharmaceutical industry* – The pharmaceutical industry is the largest of the three industries, with sales of \$10.5 billion in 1997. It is the only industry that has not experienced a decline in sales since 1990. The industry is dominated by a few large firms, with the top five firms accounting for 40% of sales. The industry is highly competitive, with many firms competing for market share. The industry is also highly regulated, with the FDA overseeing the approval of new drugs.

Figure 2. The effect of the concentration of the *Ag* on the adsorption of *Ag* by *Ag*-*Ag*2S-*Ag*2S2O3.

*Journal of Management Studies*, 19(1), 67-80.
